

L-CBF 7-21-3 MKP STARTER™

L-CBF (LIQUID CARBON BASED FERTILIZERS) 7-21-3 MKP STARTER™ is a complex carbon-based starter product designed to *positively impact soil biology and enhance nutrient availability*. L-CBF 7-21-3 MKP Starter™ uses a safe approach to driving yields, improving fertilizer performance and sustaining plants.

SUPERIOR CONSISTENCY

L-CBF 7-21-3 MKP Starter™ is manufactured using a domestic grown sugar sourced from QLF sugar cane molasses which provides a consistently based product direct from the origin to our manufacturing plants.

ENHANCED PLANT AND SOIL HEALTH

L-CBF 7-21-3 MKP Starter™ is a source of complex carbon to aid in utilization of nutrients essential for plant growth, feeding microbiology and improving healthy and productive soils.

STAND-ALONE STARTER FERTILIZER

L-CBF 7-21-3 MKP Starter™ promotes early plant and root growth for stronger starts and higher yields.

FERMENTATION YEAST EXTRACT

L-CBF 7-21-3 MKP Starter™ contains proprietary metabolites that assist biological functions aiding microbial activity and improved nutrient utilization.

LOW PH

L-CBF 7-21-3 MKP Starter™ mimics the preferred low pH conditions of the plant rhizosphere thus increasing nutrient exchange efficiency.

UNIQUE ORTHOPHOSPHATE SOURCE

L-CBF 7-21-3 MKP Starter™ is equipped with the most concentrated MKP (Monopotassium Phosphate), water soluble fertilizer available which provides more value for the producer.

*Always perform a compatibility jar test prior to application.
