

BODY CONDITION SCORE COUNTS AT BREEDING

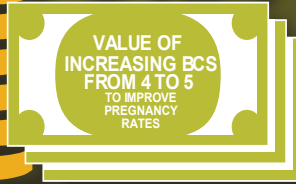

FROM BCS 4
TO BCS 5

=

\$164

QLF liquid supplements increase intake and feed efficiency to make sure your cattle are in prime condition at calving and they are ready for breeding season. Cattle who are at a BCS of 5 at the time of calving and into breeding season showed a 23% increase in pregnancy rates compared to cattle at a BCS of 4. Based on calf prices of \$1.30 lb and a 550 lb weaning weight, the producer generates in additional \$164 per head when at optimum BCS.
