

# L-CBF BOOST

*made with sugar cane molasses*

# BETTER BEANS WITH BOOST!

**RETURN ON INVESTMENT**

# \$39.70

Per acre. Two year average.

In a multi-year foliar study located in Clarion, IA, **yield** and **profitability** were positively impacted when L-CBF BOOST was applied. Trials where L-CBF BOOST was applied averaged 6 bushels an acre more than the grower's standard program.
