

## QLF KELPAK

**QLF KELPAK** is a natural biostimulant extracted from freshly harvested *Ecklonia maxima* kelp, a seaweed high in natural growth promoting compounds, scientifically proven to increase the health, quality and yield in a wide variety of crops. Kelpak is designed for use as a seed treatment, in fertilizer solutions, in furrow and as a foliar treatment.

### BENEFITS

- Increase in root tips improves:
  - plant nutrient and water uptake,
  - natural cytokinin production and subsequent foliar growth
- Reduces transplant shock
- Increases growth of seedlings and nursery plantouts
- Increases photosynthesis and carbohydrate production
- Reduces symptoms of abiotic stress
- Increased yields with better returns
- Improves shelf-life and produce quality during cold storage
- Kelpak is approved by WSDA Organic Program

### APPLICATION

- Seed coating
- Root dip
- Soil drench
- Drip irrigation
- Foliar spray (conventional, electrostatic or aerial)

### OPTIMAL USAGE

- Do not dilute more than 1:500
- Do not over dilute with drip irrigation application
- Apply as a pulse during last 10 minutes of irrigation cycle
- Do not apply more frequently than 7 days apart
- Compatible with most pesticides
