QLF & ClariFly Radio Ad

30 Seconds

Is your operation protected against nuisance flies? Fly season is here. Don't let flies hinder production.

QLF offers fly control options through feed to prevent development of flies in manure from dairy or confined beef cattle. QLF liquid supplements that include ClariFly[®] Larvicide can **REDUCE HOUSE FLY POPULATIONS BY UP TO 96.7%.**

QLF liquid supplements provide a convenient, palatable method to deliver and distribute fly control in total mixed rations fed to dairy and confined beef cattle.

For more information contact QLF at 800-236-2345 or check us out at (www dot QLF dot com)
